

Magic "CR" Valve

The Industry's Only "Full-Flow" Corrosion Resistant Check Valve

Magic Plastics' Corrosion Resistant Back-Flow prevention check valve is the latest in our line of innovative products. The "CR" Valve is completely corrosion resistant, making it the ultimate solution for protecting your expensive Heat Exchangers from the potential damage of Inline Chlorinators while also maintaining a Full-Flow circulation system. Magic Plastics' "CR" Valve is equipped with numerous unique features including:

- Proprietary designed Hastelloy Spring
- Glass-Filled Noryl injection molded shaft
- 100% Silicone Gasket (Never Requires Lubrication)
- Clear Sight Glass Removable/Serviceable Lid
- 3 IPS Sizes in 1 valve, (1 1/2" Slip*, 2" Slip & 2 1/2" Spigot)

The Spring-Loaded gate mechanism assures Full-Flow with minimal cavitation and a positive water seal when in the closed position. In addition, this feature allows the valve to be installed in virtually any orientation.

Longevity, serviceability and Magic Plastics' quality make the new "CR" Valve the ideal choice for highly corrosive conditions as well as any installations requiring the need for back flow prevention.

The Magic "CR" Valve is available now! Contact the factory direct for details.

*1 1/2" Bushings sold separately.
